FOREWORD

GREETINGS EVERYBODY!

Again, as in former years we present our 1940 dahlia list with the hope that we may have a share of your business, guaranteeing as always, satisfaction in your order.

We hope you have success with your dahlias throughout the season.

We wish to express our appreciation for your patronage the past season. Many new customers have been added to our list, and we have put forth our best efforts toward your satisfaction. *We wish to extend our sincere thanks for the numerous unsolicited testimonials* we have received for our first quality dahlia roots and plants, and we invite all other flower lovers to place their confidence in our firm.

We hope this catalog will help you in selecting the best dahlias for your garden. Remember, all dahlias are not alike, we strive to give the best.

Visitors are always welcome at the LAKESIDE GARDENS, where many seedlings are being tried out and many acres of the newest and best dahlias are in bloom from the middle of August until frost. When visiting our gardens, notice the landscaping in which only dahlias were used.

May you all have a most successful dahlia year. Grow LAKESIDE DAHLIAS and you will get quality that has proven best.

By J. Louis Roberts

Edited by Leonard Barron

The purpose of this book is to interpret step by step the problems of the Dahlia gardener. Mr. Roberts has been growing Dahlias for over twenty-five years and has written a modern manual for the home gardener that will answer all questions pertaining to Dahlia growing from his point of view. Illustrated by Natalie Harlan Davis, \$2.00 plus 10c for postage.

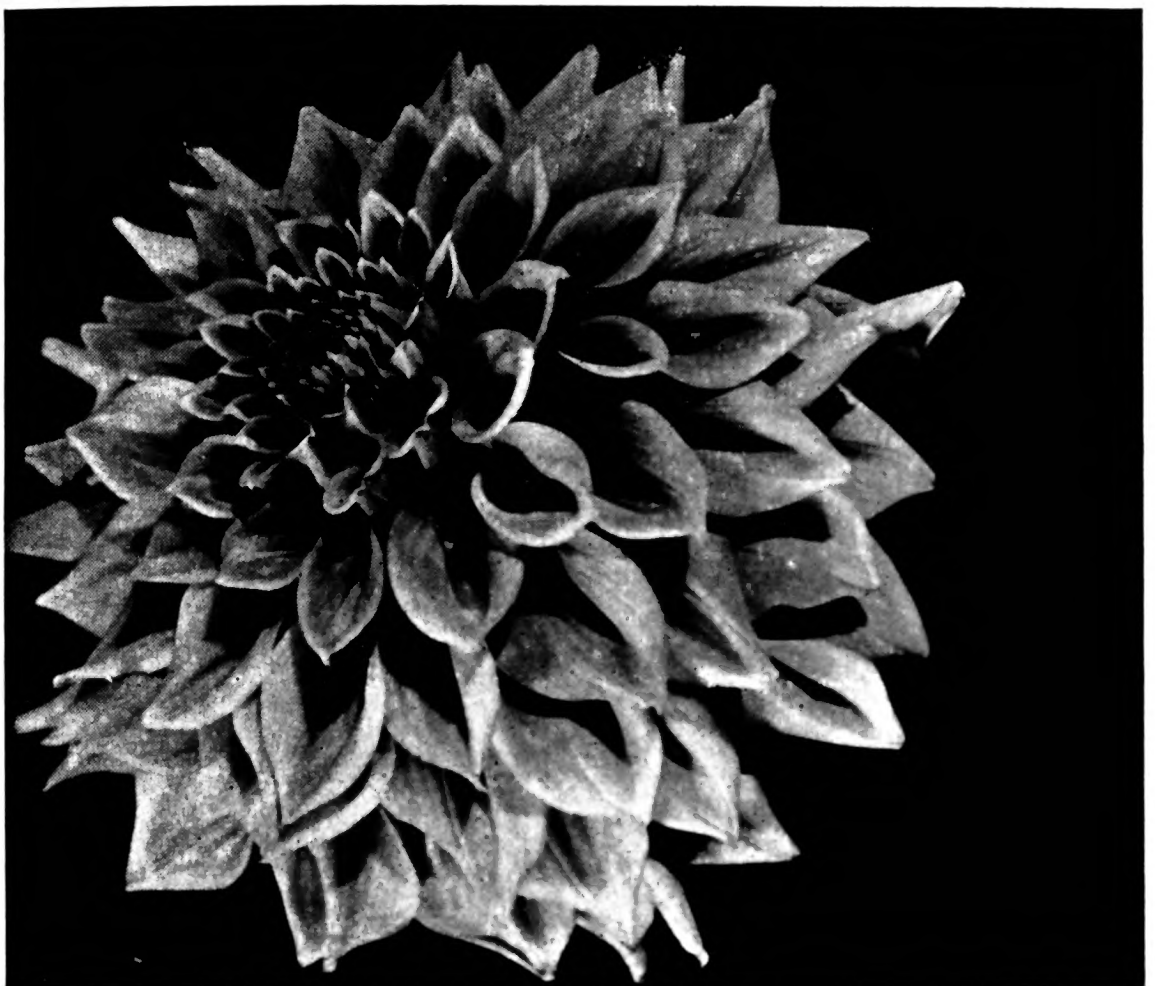

LAKESIDE GARDENS / NEW BALTIMORE, MICH.

- A. E. HEIL, (I.D.)**—An early flowering giant purple.
Plants \$.75
- ADIRONDACK SUNSET, (I.D.)** — Scarlet red with golden tips and reverse. Center of flower is tipped golden orange.....Roots \$.50 — Plants \$.50
- ADOLPH MAYER, (I.D.)**—Purple garnet, very deep color, nearly black, well formed.
Roots \$1.00 — Plants \$.50
- ALLAN A, (F.D.)**—An ivory white with lilac suffusions. The base of the petals show a slight trace of yellow.
Roots \$.50 — Plants \$.50
- ALICE MAY, (I.D.)**—Pure waxy white. The flower is beautifully formed and reminds one of a white Lord of Autumn.....Plants \$1.75
- AMELIA EARHART, (S.C.)**—The color is a combination of apricot buff, with primrose at the base of the petals, and suffused with salmon tints.
Roots \$.50 — Plants \$.50
- AMHERST PHEASANT, (F.D.)** — Deep salmon rose, tipped with chocolate on golden underground.
Plants \$.50
- AMERICAN PURITY, (S.C.)**—A fine, large, deep white on strong, erect stems. An ideal exhibition dahlia.
Plants \$.75
- APPLE BLOSSOM, (F.D.)**—A true apple blossom pink with a distinctive rose bud center.....Plants \$1.00
- AUTUMN SUNSET, (I.D.)**—Lemon yellow tinted spinal red. Long stiff stems. It is of good commercial and exhibition form. It is a wonderful grower.
Roots \$1.50 — Plants \$.75
- AZURA, (I.D.)**—Color is a delicate lilac with bluish violet sheen. It is a beauty. Exhibition flower.
Roots \$1.50 — Plants \$.75
- BAERNE, (S.C.)**—Pink with red and yellow Excellent stems, and very free flowering.....Plants — \$.50
- BARBARA ANN, (F.D.)**—A striking bi-color of maroon red with white; attractive and a very excellent cut flower.Plants \$.75
- BALLEGO'S GLORY, (F.D.)** — Mahogany, edged red. Medium sized flower. Roots \$.50 — Plants \$.50
- BALLEGO'S SURPRISE, (C.)**—A pure white dahlia. Long wavy petals. An early and free flowering variety.....Roots \$1.00 — Plants \$.50
- BEAUTE, (S.C.)**—Deep yellow. The bloom is of very good form.....Plants \$1.00

YOUR LUCKY STAR, (Str. C.)—A beautiful star-shaped straight cactus of large size and most pleasing color, the inner half of the blooms being crystal white and the outer half orchid.....**Plants \$1.50**

JOIN A DAHLIA SOCIETY

If you are not already a member, join and support your local or State Dahlia Society. You can also join the American Dahlia Society. The dues of \$2.00 yearly include a year's subscription to the A. D. S. quarterly bulletin. This bulletin is well informed with helpful hints given by well known growers, amateur and commercial. The membership dues should be sent to C. Louis Alling, 251 Court Street, West Haven, Connecticut.

APPRECIATION

We wish to express our appreciation to our many friends and customers who have so graciously recommended Lakeside Dahlias to their friends. We also thank all who have sent in names of dahlia lovers to be added to our mailing list. We shall be glad to send them our catalog; they also will be given special attention in satisfying them with the best that can be had in dahlias should they place their orders with us. If you find this catalog with its hints on dahlia culture helpful to you we will appreciate it if you will pass it on to a friend or send us their name so we may send them a copy with our compliments. And may you succeed this season in growing your most beautiful garden. If we can be of any assistance rest assured our interest in you does not stop when we have received your order—we want to know about your garden experience with our dahlias, so we can be of help in solving your problems—our wide experience is at your command, just ask Nick Koenig about dahlias the same as if he were your good neighbor; that is the spirit of Lakeside Dahlia Gardens—our dahlias make good or we do.

"No Color Thrives Like that of a Dahlia"

- WHISPER, (O.)**—Combination of yellow and scarlet.
Roots \$.50 — Plants \$.50

God made the flowers to beautify
 The earth, and cheer man's careful mood;
 And he is happiest who has power
 To gather wisdom from a flower,
 And wake his heart in every hour
 To pleasant gratitude.

—Wordsworth.

We Have
Used
VIGORO

For the Past Four Years

We have found it to be the best plant food on the market today for dahlias and gladiolus.

VIGORO is the *complete plant food*. It supplies 11 vital food elements dahlias, gladiolus, and all other plants require from the soil.

VIGORO is clean, odorless, sanitary, and easy to use.

We recommend VIGORO highly to all our gardening friends.

DAHLIA CULTURE

SOIL—Dahlias will grow in any soil provided there are sufficient plant foods in the soil to supply the needs for proper growth. Many soils can be improved to grow better dahlias. A heavy soil or clay soil may be improved by the addition of sand and the use of quantities of rotted manure and peat.

FERTILIZER—Before adding plant foods, have your soil tested to determine deficiencies. Generally, 5 to 10 pounds per 100 square feet of a fertilizer analyzing 4-12-4, or thereabouts, will meet most requirements, if the soil has already had organic material added to it. After the first of August, when the plants are beginning to show flower buds, "feeding" with small amounts of nitrogenous fertilizers, once or twice, will favor the development of larger flowers and more vigorous plants.

DIVISIONS—Never plant a "clump" of roots. Divide the clump carefully into a number of parts so that each division will have one sound, healthy tuber, and one or two plump buds.

PLANTING—For exhibition flowers, dahlias should be planted at least 3 feet apart each way. Dwarf varieties for bedding and varieties used for landscape effect may be planted closer. Dwarf singles, as Coltness Gem, should be planted 12 to 14 inches apart for best bedding effects. Dig the holes at least 6 inches deep. Place the tuber horizontally in the bottom of the hole with the bud an inch or so from the stake. Cover the roots with about 2 to 3 inches of soil. As the plants grow the hole may be filled in by cultivating.

STAKING—Five to six foot stakes will be required to support tall growing varieties. The stakes should be set in at the time of planting. If you wait until later to drive in the stakes, much damage may be done to the roots of the plants.

PRUNING—Large-flowered types and bedding types should have the tips of the plants cut out when they have reached a height of 8 to 12 inches. Cactus varieties are often permitted to grow until the first buds appear. These are then pinched out to encourage the growth of the laterals. For exhibition flowers, allow only 3 or 4 branches to develop. Remove side buds and all laterals, except those at the bottom, from each of the branches.

WATERING—If "green plants" are planted, water carefully for the first 2 weeks. Through July never allow the soil to dry out sufficiently to cause a checking of the growth. After the first of August and until early or mid-September, dahlias will require plenty of water. If the soil is well drained, there is not much danger of overwatering. Throughout the summer on dry hot days, the plants will be much benefited by a thorough syringing in the late afternoon.

DIGGING—After the first heavy frost, the tops of the plants will blacken and dry. A few days to a week after a frost the tops should be cut off and the clumps dug up. They should be carefully dried off in the sun for several hours before being stored.

STORAGE—Store the tubers in dry granulated peat in a cool place. The best storage temperature is about 45 degrees Fahrenheit. The storage atmosphere should be moist enough to prevent excess drying of the roots and at the same time not so moist as to encourage mold or storage rots.

In the fall when your dahlias are blooming, enter some blooms in the Dahlia Shows near you. You will have lots of pleasure and will learn much about dahlias at the exhibitions.

TERMS

CASH WITH ORDER. Money Orders and Checks should be made payable to Nick Koenig.

QUANTITY DISCOUNTS ON ROOTS AND PLANTS

Three of any one variety.....	less 10%
Six of any one variety.....	less 20%
Ten of any one variety.....	less 25%

The above quantity discounts do not apply to Special Offers or Collections.

GUARANTEE

All dahlia roots and plants are guaranteed healthy and true to name to the extent of replacement with true stock. Roots that fail to start in three weeks will be replaced if returned. Satisfaction and safe delivery guaranteed.

TERMS AND DELIVERY

Orders will be filled with good healthy divisions with at least one or more eyes showing or strong hardy plants in three inch pots. We do not substitute, we will notify you if unable to supply any variety.

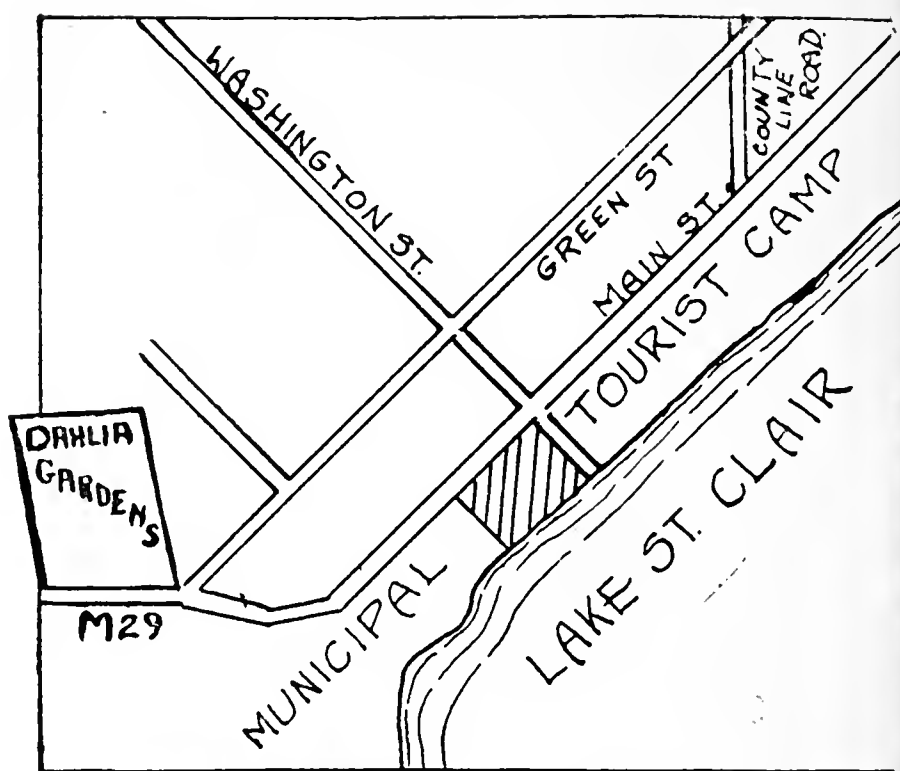

NOTICE ON GREEN PLANTS

Plants will be shipped from May 1st to July 1st. Plants can not be shipped C.O.D. as this causes delay.

To guarantee safe arrival of green plants, 25c must be added to all plant orders to cover "special delivery" if there is such service at your post office of destination, otherwise 15c for "special handling".
